

TECHCONNECT

Design & Structure Document

A Marketplace for Connecting Tech Skills to Opportunities

1. Design Goals

- Trust in transactions and interactions
 - Simple and easy-to-use interface
 - Opportunities for earning with any level of skill
 - Clean, modern design
-

2. Product Identity

TechConnect is a user-friendly digital marketplace connecting individuals with tech skills (basic to advanced) to users who need those services.

3. Color System Options

Option 1: Tech Professional

- Dark Blue (#0A192F)
- Soft Purple (#6C63FF)
- Light Gray (#F5F7FA)

Option 2: Growth & Opportunity

- Black (#121212)
- Emerald Green (#2ECC71)
- Soft Blue (#3498DB)

Option 3: Minimal Tech

- Deep Gray (#1E1E1E)
 - Violet (#8E44AD)
 - Soft White (#EAEAEA)
-

4. Layout & Navigation

- Card-based layout for services
 - Dashboard layout for logged-in users
 - Top navigation bar
 - Sidebar navigation
-

5. Homepage Structure

- Hero section with call-to-action
 - Search bar
 - Featured services (cards)
 - Users browse before login
-

6. User Flow

Visit → Browse → Search → Login → Interact

7. Pages

Core Pages

- Home
- Login / Signup
- Profile
- Services Listing
- Service Details
- Request Service

Optional Pages

- Dashboard
 - Messages
 - Settings
 - About
-

8. MVP Features

- User registration and login
 - Profile creation and editing
 - Add, edit, and delete services
 - View and search services
 - Request a service
 - Contact service provider
 - Milestone-based payment via Nkwa Pay (escrow, 10% commission)
 - Rating and review (1-5 stars) after job completion
 - Admin dashboard for dispute resolution
-

9. Future Features

- Messaging system
 - Notifications
 - Advanced filtering
 - Mobile app version
 - Multi-currency and mobile money support
-

10. UI Design Decisions

- Soft, modern buttons
 - Rich cards with images and icons
 - Simple, minimal icons
 - Consistent spacing and layout
-

11. Responsiveness

- Optimized for both mobile and desktop
-

12. Data Structure

User

- Name, Email, Skills, Contact information, Role (skilled/client/admin), Rating score

Service (Job)

- Title, Description, Budget (FCFA), Deadline, Required skills, Milestone structure, Status

Milestone

- Description, Amount, Submission file, Due date, Status (pending/approved/changes requested)

Payment

- Transaction ID (from Nkwa Pay), Amount, Commission (10%), Status, Date

Request

- Title, Description, User reference

Rating

- Score (1-5), Comment, From user, To user, Date
-

13. Consistency Rules

- Uniform color usage
 - Consistent button styles
 - Reusable components
-

14. Development Approach

- Agile methodology
 - Build MVP first
 - Iterate based on feedback
-

Note: This document has been aligned with the SRS to include milestone-based payments, ratings in MVP, admin functionality, and updated data entities, while preserving the original design character.
